

## Spinning World

**What you need:** Earth activity page, green and blue markers, pencils or crayons, glue stick, scissors, yarn, beads

\*Optional; needle to thread the beads onto the yarn, or you can tightly tape the end of the yarn to make a needle.

### What you do:

- Print the template onto plain white paper.
- Color in the four different sides of Earth
- Fold each page down the center line both forwards and backwards.
- While folded, cut the shapes out.
- Fold each earth shape in half and glue the earth shapes  $\frac{1}{2}$  back to  $\frac{1}{2}$  back. Before gluing the final side together place a piece of string down the center. Stick a piece of tape over it to keep the string in place. Glue the final side down.
- Thread beads onto the base of the string. This will keep it weighted down so it spins better. If the beads have a narrow hole you might need to use a needle to thread them on.
- Tie a loop in the top of the string and hang somewhere where it can catch the breeze

(You could even use a black or red marker and write one word on each side; "Tell Others About Jesus".)

The Craft Train

### WHAT YOU SAY:

Jesus did an amazing thing for us all. He came to this earth, he lived a sinless, perfect life, yet He still chose to die on the cross for **our** sins so we won't be separated from God forever. It is our job to tell everyone we know about Him and what He did for us. **Whatever happens, remember, God has a job for you.** Hopefully, this spinner can help us remember to do just that every time we see it.
